

75% REDUCTION
*in collision
expenses*

***Vehicle mounted CCTV systems with
high tech digital video recorders***

– it's all about safety

Protect your vehicles!

What would you say to a ***75% reduction of your fleet collisions*** and at the same time noticeable improvements in driver behaviour and efficiency?

– it's all about safety

A Unique Application – CCTV Vehicle Security System

The **FleetSentinel System** is a unique application of CCTV technology. Our vehicle mounted CCTV cameras work with high tech digital video recorders (DVR) to provide a versatile security system that utilises the latest technology.

The use of CCTV camera systems for commercial fleet vehicles ***can improve road safety*** and at the same time provide security for HGVs and their drivers.

By installing the FleetSentinel CCTV System, you can make considerable savings on transport related costs resulting from road traffic collisions, inappropriate driving and failed drops.

If you have commercial vehicles on the road, then the installation of a **FleetSentinel System** will be of interest to you. There are many proven benefits that come with using our system, especially with regard to improving safety for road users and drivers.

*The **BENEFITS** of operating the FleetSentinel Vehicle Mounted CCTV System*

- ▶ Provision of irrefutable visual evidence to prove or disprove allegations of poor driving
- ▶ Provision of irrefutable visual evidence regarding liability after an accident and settling claims
- ▶ Provision of irrefutable visual evidence regarding liability and claims in contrived and constructed accidents
- ▶ Protection for your commercial vehicle when parked

- ▶ **Monitoring of deliveries**
- ▶ **Effective driver improvement tool**
- ▶ **Visual evidence can be preserved and referred to at any time**
- ▶ **Intelligence database**
- ▶ **Bulletin Alerts**
- ▶ **Safe, secure storage of all evidence and intelligence obtained**

– it's all about safety

The FleetSentinel System is suitable for one vehicle or a whole fleet of HGVs

Each FleetSentinel System that we set up and manage for our customers is tailored to their requirements, including:

- ▶ **Choice of DVR from our selected range**
- ▶ **Recording of high quality multiple channels of sound when microphones are fitted**
- ▶ **Recording of clear images by vehicle mounted CCTV cameras**
- ▶ **Multiple camera installation, individually set up to suit your needs**

- ▶ **Security locks, fitted to protect recording media and DVR**
- ▶ **Linking of the FleetSentinel System to an existing reversing camera system**
- ▶ **An effective system that runs in the background, ready for interrogation when you need it**
- ▶ **Removal and preserving of evidence gathered by the FleetSentinel System**
- ▶ **FleetSentinel System installation**
- ▶ **FleetSentinel Comprehensive Management and Leasing Package, with provision of system maintenance and testing of all equipment to ensure that it is operating properly**
